ION Sol Kite Waist 2011

New ladies free style harness with lean cut outline for maximum flexibility. New belt construction, quick release and neoprene bags inside. Thanks to the elastic cuts in the rear part of the harness, it provides a maximum in flexibility. The new Contour form with wrap tec guarantees a perfect fitting.

Properties:

- Hip protection
The double layer foam padding protects the bones and all unprotected parts in this area, especially if the body is flexed to the side.
- Cross Link Webbing
Usually, the belt ends somewhere behind the buckle. A belt without cease along the rear side of the harness guarantees a better load balancing.
- Internal Flex Belt
Flexible hip belt. Backs a safe, straight and comfortable seat of the harness.
- Handle Pass Leash Slider
A small ring of metal can slip the leash along the back of the harness and makes handle pass tricks easier.
- Push Button Spreader Bar
The push button supports the quick assembly of the harness. There is no need to assemble all velcro strips at the buckle. Simply close the metal ring in the spreader bar, adjust the belt and - here we go!

- Belt Garage
Prevents from loose tottering of the belt.
- Protection Pads
A solid, neoprene padded board that keeps the harness hook away from the body.
- Contour Shape
preformed construction
- Quick Fit
- Soft edges
- Wrap Tech
preformed construction of the harness that better fits the body.
