O'Brien Decade Impact Base & Decade CT Boot 2010

Board:

The wake board combines the ten-year experience of Daniel in wake boarding with the technical development of form and quality. Decade is based on Natural, however, several very good attributes of other shapes were integrated, like for example from Player.

The main features are the abrasion-resistant PTEX Impact Grind Base coating for shredding the Obstacle, the DELTA base, the refined "molded in" fins and the rounded edges to protect against impact.

The wake board easy releases on the edge and responses very well. "... with more pop than ever before."

Binding:

The Decade Pro binding is not only a close-toe boot in a very fancy style. The aim was, to integrate the comfort of regular boots into a wake board binding, to stay lightweight and to reach a perfect performance at the water.

The wake board binding keeps it's size, doesn't ease off in a time and fits like a perfect shoe. The ergonomic and absorbing insole provides soft landings.
